

SASFA ACCREDITATION SCHEME FOR LIGHT STEEL FRAME BUILDING SYSTEMS

This serves to certify that the

FrameMaster

light steel frame building system used in South Africa, was assessed against the SASFA Accreditation Scheme criteria for Stage 1 by an independent assessor, and was found to comply with the requirements, subject to conditions set out on the assessment report dated 9 June 2009.

It should be noted that the liability of SASFA and its appointed assessors is limited as set out in the SASFA Accreditation Scheme (dated May 2009).

This assessment is valid for a maximum period of 3 years, and must be renewed before or on 30 June 2012.
